Tactical Intelligence
Garrison Locations

1. Information is urgently needed concerning the locations of the garrisons in each of the following towns: Coban, Zacapa, Jutiapa, Mazatenango, Quezaltenango, Quiche, Puerto Barrios and San Jose. By location is meant the exact address, and a small map indicating the location with respect to the main square and public buildings would be helpful. Also of essential importance is a detailed description of the communications facilities in each garrison town. It is requested that you forward this information as soon as possible, and that you prepare a dispatch for the next pouch indicating how much of this information is immediately available to the CALLIGERIS organization and how long you estimate it will require to obtain the balance.

2. In this connection it is requested that you immediately inform LINCOLN of the present status of all EEIs in your possession. This information is of vital importance for our operations. As you have already been informed it is desired that all information now available be pouched at once. These answers can be keyed into the question numbers on the EEIs, and it is not necessary to forward the questionnaires themselves. It is believed that much of this information can be furnished by CALLIGERIS or persons in his organization. The Guatemala City station is being asked to pass the questions in paragraph 1 to SEMANTIC and SECANT, inasmuch as this appears to be the most rapid and secure channel to them.
